The result is sheer joy and the tracking list to this new release is no less! Beautiful music from a beautiful place, don't miss it!

Naz – Chatshow – UK

It is also good value for money because I can assure you it is going to be a while before you want to move on to the next thing.

Takaya – Posivision – Japan

This compilation blow away this abnormal hot summer with cool lounge sounds from Corsica France and this is not like ambient, more chilly lounge and fashionable

Koldo Barroso - Intuitive Music - Canada

This compilation album tries to immortalize the spirit of the Mediterranean island of Corsica with a collection of easygoing and warm House tracks that will bring you the same kind of feelings that made the Spanish island of Ibiza famous: beach, sun, good vibes, relaxation, etc...

A « photo album » compilation where each track, like a well taken photograph, reminds you of your best vacation moments.
